About Me

Innovative and experienced Web3 & **CryptoCurrency Full Stack Engineer** with a proven track record of identifying issues and achieving solutions to increase productivity for over 4 years.

- Adept in communicating and Agile with team and clients regarding appropriate issue tracking, providing perfect solution, and flexible workflow.
- Experienced in building successful NFT Marketplace and DApps on Ethereum, Binance, Polygon and so on using web3.js/ether.js and solidity for over 4 years, and in building websites and e-commerce using React.js/Next.js/Express/MERN for over 9 years, and committed to achieving the highest level of client satisfaction possible.
- Giving satisfaction to prestigious customers by high-quality algorithm and smart programming logic.
- Skilled at multitasking and at finishing work neatly before a deadline.

Employment History

Lead Developer, RedKite, U.K

November 2021 — Present

RedKite is the first platform to curate leading contemporary artists, commission original physical works, NFTs and asset backed NFTs all within one exciting and innovative space.

- Lead Front-end, Back-end, Smart Contract teams and work as devops.
- Building a project from scratch, managing it, building strong logic and algorithm with simple codebase, and trying to make the marketplace more user-friendly.

Senior Smart Contract Developer & Co-founder, Treasure Hunt, philippine

February 2022 — Present

Treasure Hunt is a play-to-earn game under Polygon Network. Players collect Pirates and Ships to create Fleets and Raid Islands to earn USDT. All earnings are in USDT to make sure the reward is stable. All in-game transactions (minting, fuel, contract, energy, and repair) will also be paid in USDT.

Develop smart contracts and Back-end of this game.

Manage communication with team-moderators.

Senior Web3 Full stack Developer, KAIROS, Malaysia

April 2019 — October 2021

KAIROS is an international Technology and Management Consulting Group with a rapid pace development and innovative solutions for demanding projects.

Worked as a senior Web3 developer, responsible for building, deploying and maintaining applications.
