#### 4. <http://ethereummax.org/> (DEX - Decentralized Exchange)

- **Description**
- EthereumMax (EMAX) is a progressive ERC-20 token built on the secure Ethereum network. We launched EMAX with a vision to bridge the gap between the emergence of community-driven tokens and the well-known foundational coins of crypto, creating a unique token that provides lifestyle perks with financial rewards and incentives to its holders with a pathway for practical long-term use in everyday life. This is the essence of the Culture Token.
  - EMAX is a long-term project with a bold vision, strategic roadmap, and united community to accomplish lofty goals few have ever imagined, let alone conquered – and we plan on doing just that.
- **Responsibilities**
- Role was **Frontend developer** and **Smart contract developer**.
  - Implemented wallet connection (Metamask and so on), Integration APIs, Using CMS for UI.
  - Integration backend side and frontend side.
  - Created smart contracts for swap, buy/sell, withdraw, deposit and so on.
- **Technology stack**
- Frontend (WordPress, SCSS by PSD design)
  - Blockchain (Solidity, web3.js)
