

John Harryson

Senior Full Stack Developer

Talented and energetic collaborator with a desire to get more up-to-date on new technologies faster and more to work hard in a fast-paced environment. Have a keen insight into what it takes to run a successful project because I have taken part in different successful projects from startups to multi vendors.

WORK EXPERIENCE

Adhara

Senior Blockchain & Frontend Developer

Remote | June 2019 - April 2022

- Performed all of the client's requirements with several networks - Ethereum, Polygon, Binance Smart Chain, Solana, Algorand and so on.
- Huge experience in NFT marketplaces, NFT sales, DeFi, near-blockchain projects (p2p exchangers, automatic exchangers, turn-based games with backend logic + contracts, etc.).

iTechArt Group

Team Leader (Frontend & Backend side)

New York, NY | July 2017 - April 2019

- Wrote 200+ unit tests to verify the functionality of user interfaces, back-end processing, connectivity, and relational database interactions
- Developed 10+ new application features and distributed services that support high-scale applications

Intive

Senior Frontend Developer

Remote | June 2015 - May 2017

- Set up a testing framework for team projects using Mocha and Chai to test the Node API. This decreased the amount of bugs pre-deployment by over 70%.
- Mentored 12 new junior & middle front-end developers on the team in expanding JavaScript, React, and Angular skillset.

FashionNova

Ecommerce Developer

Remote | December 2013 - May 2015

- Monitored store design, reducing unnecessary costs by 34% and saving over \$19,000 a year in maintenance fees
- Collaborated with management and associates to strategize and promote store events and sales, such as marketing and design
- Identified and evaluated customer needs, increasing sales revenue by 19% and customer satisfaction by 23%
